

Funding Services

Funding for the cost of home modifications, technology, or services needed by consumers who experience a disability are provided by numerous programs. The guidelines and eligibility requirements of those programs vary widely and are often overlooked as potential resources for those who are unfamiliar with how to access them.

The Assistive Technology Partnership's Resource Specialist will research the various programs across the state to determine a person's potential eligibility for funding assistance.

Families should list income of married couples or income of all adults, including wages of children ages 14-18.

The Process

1. The Service and Device Application is used to gather information about the services and/or devices needed. **Complete the Service and Device Application electronically or by mail:**

3. The applicant will be notified of eligibility, and any necessary referrals will be made to the appropriate specialist, program, or service. This process takes about two weeks, but in some instances it may take longer.
