Description: Brain Injury Alliance of Nebraska, UNO Department of Criminology and Criminal Justice, Department of Neuropsychology at University of Nebraska Medical Center, and Women's Center for Advancement-Omaha, are pleased to offer a workshop on the correlation of brain injuries and domestic violence.

Workshop Objectives: Participants will learn about the prevalence of domestic violence, brain injury and co-occurring condition, brain injury screening tools, and community resources.

Target Audience: First responders, probation officers, parole officers, attorneys, corrections staff, judges, law enforcement, students, faculty, and emergency management.
