

INVISIBLE WOUNDS: BRAIN INJURY & DOMESTIC VIOLENCE

FRIDAY, FEBRUARY 9, 2018 | 8:15 AM – 12:00 PM | CEC 201

Brain Injury Alliance of Nebraska, the Department of Neuropsychology at University of Nebraska Medical Center, and the Grace Abbott School of Social Work are pleased to offer a workshop on the correlation of brain injuries and domestic violence. Learn more about the prevalence of domestic violence, brain injury and co-occurring conditions, brain injury screening tools, and community resources. This workshop is open to human service professionals, emergency management professionals, first responders, and persons interested in identifying and responding to the unmet needs of domestic violence victims.

3 Nebraska Social Work and Mental Health Practice CEU's available.

This workshop is FREE to attend. Advanced registration is required as space is limited.
